PUF SHEET

PUF (Polyurethane Foam) Boards / Sheets

Material: polyurethane

Primary use:

Product overview

PUF Sheets are manufactured from high-density rigid polyurethane foam, offering excellent thermal insulation properties. These lightweight, durable, and easy-to-install boards are widely used across insulation, packaging, and construction industries. The image shown displays a plain (unfaced) foam core, which can be used directly or supplied with metal/laminate facing as required.

Applications

- Cold storage and refrigeration units
- Prefabricated buildings and site cabins
- Roofing and wall panels
- Packaging and transport insulation
- Clean rooms, dairy, and poultry farms
- False ceiling and partition systems

Key features

- ■ Superior thermal insulation
- ■ Lightweight with high strength-to-weight ratio
- ■ Moisture and weather resistant
- ■ Easy to cut, shape, and install
- ■ Long service life, non-degradable
- ■ Good sound insulation properties

Available options / specifications

Contact EIC for available specifications. Share your size, thickness and quantity and EIC will confirm the options available for PUF SHEET.
